Last date for Queries:	08 September, 2025
Response to Queries:	10 September, 2025
Closing date of RFP:	18 September, 2025
Address RFP response to:	Procurement Department
E-mail Address:	procurement@karandaaz.com.pk

SECTION 1. LETTER OF INVITATION

RFP No. 168
29th August 2025, Islamabad

1. The purpose of this Request for Proposal (the "RFP") is to solicit proposals from interested bidders for providing "Designing a Sustainable Business Model for Raast" The RFP is designed to assess whether bidders are able to provide the goods and services required (hereinafter jointly and severally referred to as the "Services"), and through a competitive and fair assessment, select a winning bidder for the Services for a long-term contract.
2. Karandaaz Pakistan invites sealed proposals from interested and eligible bidders. Further details on the Services required are provided in the Terms of Reference (Section 4 of RFP).
3. The bidder will be selected, in accordance with the Procurement Policies and Procedures of Karandaaz Pakistan (the "KRN Policy and Procedures"). In the event of any conflict or inconsistency in terms and conditions of the RFP and the KRN Policy and Procedures, the KRN Policy and Procedures shall prevail.
4. Karandaaz Pakistan anticipates issuing a Fixed Price Contract in PKR.
5. An award will be made based on the Quality and Cost based selection.
6. This RFP is only an invitation to the prospective Bidders to submit their proposal. It primarily contains indicative terms for the Bidders to submit their proposals and does not confer any rights to the Bidders. Any information contained in the RFP or provided to the Bidders is on the terms and conditions set out in this RFP. Karandaaz is providing this RFP without any warranty or representation, express or implied, as to its content, its accuracy or completeness and may at its absolute discretion, but without being under any obligation to do so, update, amend or supplement the information of this RFP. Each Bidder shall be responsible for conducting its own investigation and analysis and should check the accuracy, reliability and completeness of this RFP and where necessary obtain independent advice. In case of conflict between the provisions of this RFP and Addendum(s) to the RFP, the provisions of this RFP shall prevail unless stated otherwise. In case of any conflict between the provisions of this RFP, the decision of the Purchaser shall be final regarding the overriding effect of the respective provision.
7. Both technical and financial proposals must be submitted in a hard copy and electronically through email with subject: "Designing a Sustainable Business Model for Raast" on **18th September, 2025**. Bidders must prepare one hard copy of the technical proposal and one hard copy of the financial proposal, and submit them in separate sealed envelopes to the

attention of 'The Procurement Department' 1-E, Ali Plaza, D Chowk, Mezzanine Floor, Nazimuddin Road, Blue Area, Islamabad, Pakistan. Bidders **MUST** also submit electronic copies of technical & financial proposals through email at **procurement@karandaaz.com.pk.** Bidders must also submit password protected electronic copies of financial proposal. Password for financial proposal will be requested by Karandaaz procurement department at the time of financial opening (if needed).

Soft copy of the bids/proposals shall be considered in case of any discrepancy found with hardcopy.

Yours sincerely,
The Procurement Department
Karandaaz Pakistan

SECTION 2. INSTRUCTIONS TO BIDDERS

A. General

1 Scope of Proposal

Karandaaz Pakistan issues this Request for Proposals (the "RFP") for the following Services: **"**Designing a Sustainable Business Model for Raast**"**

Throughout this RFP:

i. The term "in writing" means communicated in written form (e.g., by mail, e-mail, fax)
ii. "Day" means calendar day

2 Fraud and Corruption

Bidders shall comply with Karandaaz Pakistan's policy regarding fraud and corruption set out in Section 3 of the RFP.

3 Eligibility

Karandaaz Pakistan may specify certain minimum qualification criteria in the Terms of Reference in Section 4 of the RFP e.g., minimum years of relevant experience; etc.

Bidders shall be under an obligation to disclose to Karandaaz Pakistan any situation of actual or potential conflict that impacts their capacity to perform/act in accordance with Karandaaz Pakistan's best interests or pose a conflict of interest. Failure to disclose such situations may lead to the disqualification of a bidder or the termination of its contract. Karandaaz Pakistan's policy with regard to conflict of interest is specified in Clause 33 of Section 3 of the RFP.
Bidders shall, upon request, provide evidence of their continued eligibility to the satisfaction of Karandaaz Pakistan, as may be requested from them from time to time.

Bidders shall be under an obligation to disclose to Karandaaz Pakistan whether they are a Related Party of Karandaaz Pakistan. Failure to disclose may lead to the disqualification of a bidder or the termination of its contract. Karandaaz Pakistan's policy with regard to related parties is summarized in Clause 35 of Section 3 of the RFP.

4 One Proposal Per Bidder

An entity can participate only in one bid: as a single bidder, as a lead in a consortium/ joint venture or as a partner in a consortium / joint venture. Partnership firms or similar entities in different jurisdiction which work under common brand name or a part of affiliated network will be regarded as single entity and may not participate in more than one bid. Similarly associates and subsidiaries of an entity will be regarded as a part of a group and may not participate in multiple bids. Bidders may ask for clarification and any decision in this regard by Karandaaz shall be deemed to be final.

Karandaaz will not allow sub-contracting under any circumstances.

5 Cost of Preparation of Proposal

The bidder shall bear all costs associated with the preparation and submission of its proposal. Karandaaz Pakistan shall not be responsible or liable for any such costs, regardless of the conduct or outcome of the bidding process.

B. Request for Proposal

6 Contents of the RFP

The RFP comprises of the documents listed below plus any Addendum issued pursuant to Clause 8, of Section 2 'Amendment of RFP'.

Section 1 - Letter of Invitation
Section 2 - Instructions to bidders
Section 3 – Procurement Policy – bidder conduct
Section 4 – Terms of Reference
Annexure A – Proposal Submission Form
Annexure B – Undertaking that the firm is not blacklisted
Annexure C – Conflict of Interest Form
Annexure D – Related Party Disclosure

7 Clarification of RFP

All questions and/or clarifications regarding this RFP must be submitted via email to Procurement@karandaaz.com.pk no later than **8th September 2025**. All correspondence and/or inquiries regarding this solicitation must reference the RFP number. No phone calls or in-person inquiries will be entertained; all questions and inquiries must be in writing.

Questions and requests for clarification—and the responses thereto—will be uploaded on Karandaaz's website and also sent directly to the bidders via email on **10th September 2025**.

Only written answers will be considered official and carry weight in the RFP process and subsequent evaluation. Any verbal information received from a Karandaaz employee or other entity should not be considered as an official response to any questions regarding this RFP.

8 Amendment of RFP

At any time prior to the deadline for submission of bids, Karandaaz Pakistan may amend the RFP by issuing an Addendum. Any Addendum so issued shall be part of the RFP and will be sent directly to the bidders via email. To give prospective bidders reasonable time in which to take an Addendum into account in preparing their bids, Karandaaz Pakistan may, at its discretion, extend the deadline for the submission of bids, pursuant to Clause 16, of Section 2 'Deadline for Submission of proposals'.

C. Preparation and Submission of Proposals

9 Language of proposal

All documents relating to the proposal shall be written in the English language.

10 Documents Comprising the Proposal

Pre-requisite Technical Criteria:

Applicants will have to meet the following pre-requisite criteria:

I. The vendor may be nationally or internationally based, however international firms

must have a local partner or be registered in Pakistan, have a valid National Tax Number (NTN) and Company Registration Certificate.

II. In case, the proposed team comprises overseas nationals, a certificate must be provided that those individuals will be able to travel to Pakistan and remain in Pakistan as and when required for the assignment. Nationals, Permanent residents or people originating from India and/or Israel must not be included in the proposed team even if they hold dual nationality and a passport from any other country.

III. Has audited accounts and tax returns for a minimum of two financial years.

IV. The bidder has not been blacklisted within Pakistan or any other jurisdiction. An undertaking must be provided to this effect.

V. In case of consortium, lead firm must be specified; letter of partnership to be included in annexes; prerequisites will apply to all consortium partners.

**Note: Applicants that fail to meet the pre-qualification criteria will be excluded from the Proposal Evaluation.*

1. **Technical proposal consisting of the following;**

   The technical proposal should be no more than 20 single-sided pages, excluding appendices. Proposal exceeding the page limit will not be considered for evaluation.

I. Profile of the company and profiles of key consortium members (if applying as a consortium)

II. Description of previous experience of similar and relevant assignments (2 pages max).

III. Past Experience of the firm or the consortium conducting and completing similar assignments;

IV. Understanding of the project's scope of work (inclusive of any comments regarding ToR);

V. Proposed methodology (should be in line with the scope in the ToRs).

VI. Detailed work plan with deliverables and timelines clearly defined.

VII. Project team (experts proposed and their exact role in the assignment);

VIII. Activity Plan (Based on Budget - Identify cost heads and give a break up of activities against each cost head)

IX. Requirements for Joint Venture / Consortium Agreement (Contractor must meet the following mentioned requirements as following).

   i. The documents should be signed by all Partners or Lead Partners should have valid Power of Attorney duly signed by all members of the Consortium.

   ii. Joint Venture consortium should have valid agreement which delineates the rights and obligations of each member.

X. Proof of Partnerships - MOUs/LOIs with selected executing partners

XI. Financial Statements (past 2 years) of the primary applicant

Presentation;

- ➔ Understanding of Project Scope
- ➔ Methodology

➔ Past Experience

2. Financial proposal

Pricing must be fully comprehensive, complete, and list any available discounts. Pricing information supplied with the proposal must be valid for at least 90 (ninety) days after the due date for proposal submission. All one-time and recurring costs must be fully described. Prices should be quoted, both inclusive and exclusive of all but showing separately, costs of inspection, services, transportation, Provincial/Federal taxes, import duties if any and other levies. Karandaaz will not be responsible for any erroneous calculation of tax rates. All differences arising out as above shall be fully borne by the successful bidder. In case the bidder doesn't identify inclusion of applicable taxes in the proposal, it shall be assumed that the quoted price is inclusive of all applicable taxes.

The financial bid must be in-line and rationalized with the proposed implementation strategy submitted in the technical proposal corresponding to the scope of work given in this RFP.

Kindly submit signed and stamped copy of both technical and financial proposal.

11 Currencies of Bid, Contract and Payment

The financial proposal must be submitted in PKR only. The contract will only be offered in PKR and the payments will be made in PKR.

Karandaaz will pay the successful Contractor's invoice upon i) receipt of the invoice ii) approval from Karandaaz of the Contractor's Deliverables. Payment will be made in PKR, as agreed, to the account specified in the Contractor's invoice within 30 days after the acceptance of deliverables and submission of invoice.

Payments for deliverables will be made exclusively in PKR to a local bank account. For bidders NOT having a local partner as part of the bid or an office in Pakistan, all payments shall be made in USD as per the contracted schedule of payments, using selling USD/PKR exchange rate quoted on SBP's website on the payment date.

12 Proposal Validity

Proposal shall remain valid for a minimum of ninety (90) days after the proposal submission deadline date established by Karandaaz Pakistan. A proposal valid for a shorter period shall be rejected as non-responsive.

In exceptional circumstances, prior to the expiration of the proposal validity period, Karandaaz Pakistan may request all bidders who have submitted their proposals to extend the period of validity of their proposal for a specified additional period. The request and the responses shall be made in writing. Agreement by a bidder to extend the validity of its proposal, shall be without any change in the original proposal and with confirmation of availability of the key experts. A bidder has the right to refuse extension in the validity period of its proposal, in which case such proposal will not be further evaluated.

If any of the key experts/resource become unavailable for the extended validity period, the relevant bidder shall provide an adequate justification in writing and evidence to the

satisfaction of Karandaaz Pakistan together with the substitution request. In any such case, the replacement key expert shall have equal or better qualifications and experience than those of the originally proposed key expert. The technical evaluation score, however, will continue to be based on the evaluation of the CV of the original key expert.

If the said bidder fails to provide a replacement key expert with equal or better qualifications, or if the reasons provided for the replacement or justification are not to the reasonable satisfaction of Karandaaz Pakistan, the proposal will be rejected at Karandaaz Pakistan's sole discretion.

13 Proposal Security

A proposal security is not required for purposes of this procurement.

14 Alternative proposals

Alternative proposals shall not be considered.

15 Format, Signing, and Submission of Proposal

The bidder shall prepare and email a scanned copy of the documents comprising the proposal as specified in Clause 10, of Section 2 on its official letterhead. Each document shall be signed by a person duly authorized to sign on behalf of the bidder and all pages of the proposal shall be initialled by the person or persons signing the proposal.

The proposal shall contain no alterations or additions, other than those which are necessary for complying with instructions issued by Karandaaz Pakistan, or as are necessary for correcting errors made by the bidder, in which case such corrections shall be initialled by the person or persons signing the proposal.

16 Deadline for Submission of Proposals

Proposals must be received by Karandaaz Pakistan no later **18th September 2025**.

Karandaaz Pakistan may extend the deadline for submission of proposals by issuing an amendment in accordance with Clause 8, of Section 2 'Amendment of RFP', in which case the original deadline shall be extended to the new deadline.

17 Late Proposal

Any proposal received after the deadline for the submission of proposals prescribed in Clause 16, of Section 2 by Karandaaz Pakistan will be considered only at the sole discretion of the evaluation team.

18 Withdrawal, Substitution, and Modification of Proposal

Bidders may withdraw, substitute or modify their proposal by giving notice in writing before the deadline for submission of proposal prescribed in Clause 16, of Section 2 'Deadline for Submission of Proposal'.

Each bidder's withdrawal, substitution or modification notice shall be prepared, sealed, marked, and delivered in accordance with Clause 15, of Section 2 'Format, Signing, and Submission of Proposal', with the subject line: Responding to RFP for "Designing a Sustainable Business Model for Raast" "WITHDRAWAL," SUBSTITUTION" or "MODIFICATION"] as appropriate. No proposal may be substituted or modified after the deadline for submission of proposal as afforested.

D. Proposal Opening and Evaluation

19 Proposal Opening

Karandaaz Pakistan shall open the proposals, including modifications made pursuant to Clause 18, of Section 2, on any day after the deadline stipulated in Clause 16, of Section 2 or the extended deadline in accordance with Clause 16 of Section 2, as the case may be.

20 Confidentiality

Information relating to the examination, evaluation, comparison, and post-qualification of proposal, and recommendation of contract award, shall not be disclosed to bidders or any other third persons whatsoever, prior to publication of the contract award. Any effort by a bidder to influence Karandaaz Pakistan in the examination, evaluation, comparison, and post-qualification of the proposal or contract award decision may result in the rejection of its bid. Notwithstanding the foregoing, from the time of proposal opening to the time of bidding process conclusion, if any bidder wishes to contact Karandaaz Pakistan on any matter related to the bidding process, it should do so in writing at the address indicated in Clause 7, of Section 2 'Clarification of RFP'.

21 Clarification of Bids

To assist in the examination, evaluation, and comparison of proposals, Karandaaz Pakistan may, at its discretion, seek clarifications in writing and/or through a presentation in respect of the proposal from any bidder. The request for clarification and the response shall be in writing, but no change in the price or substance of the proposal shall be sought, offered, or permitted except correction of arithmetical errors discovered by Karandaaz Pakistan in the evaluation of the proposals in accordance with Clause 26 of Section 2 'Correction of Errors'.

22 Preliminary Examination of Proposals

Prior to the detailed evaluation of proposals, Karandaaz Pakistan shall first review each proposal and check the power of attorney or any other form of delegation of authority demonstrating that the representative has been duly authorized to sign the proposal, initialization of all pages, etc.

23 Determination of Bidder's Eligibility and Qualifications

Karandaaz Pakistan's determination of a proposal's responsiveness shall be based on the contents of the proposal itself. A substantially responsive proposal is one, which conforms to all the terms, conditions, and specifications of the RFP, without material deviation or reservation. A material deviation or reservation is one (a) which affects in any substantial way the scope, quality, or performance of the Services; (b) which limits in any substantial way or is inconsistent with the RFP, Karandaaz Pakistan's potential rights or bidder's obligations under the proposed contract; or

(c) the rectification of which would unfairly affect the competitive position of other bidders presenting substantially responsive proposal.

Karandaaz intends to solicit proposals from a firm or a consortium. The vendor may be nationally or internationally based, however international firms must have a local partner or be registered in Pakistan, have a valid National Tax Number (NTN) and can travel and work across Pakistan.

24 Evaluation of Technical Proposal

Each proposal that meets all mandatory requirements and is not rejected for reasons stated in these instructions will be given a technical score.

The evaluation criteria, relevant sub-criteria, and point system to be used to evaluate the technical proposals shall be:

Desk Review of Proposal (40 points)

This is the first stage of the proposal evaluation process. Proposals will undergo a technical review by a technical evaluation committee. In the desk review phase, proposals will be evaluated against the following criteria:

High-level Criteria	Detailed Sub-Criteria	Score
Understanding of the project's scope of work (inclusive of any comments regarding ToR);	Demonstrated understanding of the project scope as outlined in the published Terms of Reference,	8
Proposed methodology	Proposed methodology and approach for policy development, aligned with the requirements outlined in the Terms of Reference (TORs)	8
Past Experience of the firm	Past Experience of the firm or the consortium conducting and completing similar assignments;	8
Work plan and Deliverables	Work plan and Deliverables;	8
Project team (experts proposed and their exact role in the assignment);	Proposed project team, including detailed profiles of key experts and their specific roles and responsibilities within the assignment	8
Total		**40**

Applicants scoring at least 30 marks of the technical evaluation score (out of 40), will proceed to the presentation stage

A. Presentation

Proposals that attain a score of 30 points and above out of 40 points in the desk review phase will proceed to the presentation stage. Bidding entities that qualify for the presentation stage will be invited to present their proposals in detail, addressing any concerns or questions posed by the evaluation committee. The presentation round will have a total score of 40 points. Bidders will be evaluated based on how well they present their proposals and respond to the concerns and questions posed by the technical evaluation committee.

- Presentation; (40 points)

- ➔ Understanding of Project Scope (10)
- ➔ Methodology (10)
- ➔ Past Experience (10)
- ➔ Response to questions (10)

Based on the presentation, the final technical evaluation score will be awarded.

B. Finalization of Technical Evaluation Score

Based on the presentation and the desk review of proposal, the final technical evaluation score will be determined, as depicted below:

Proposal Evaluation Phase	Evaluation Methods	Evaluation Score
Technical Evaluation		
A.	Desk Review of Proposals	40
B.	Presentation of Proposals	40
C.	Finalization of Technical Evaluation Score	(A + B) = 80
Financial Evaluation		
D.	Evaluation of Financial Bids	20
Project Award		
E.	Finalization of Proposal Evaluation	(C + D) = 100

Bidders that achieve a combined score (Desk review + Presentation) of 60 points and above will progress to the financial evaluation stage.

Based on the presentation, the final technical evaluation score will be awarded.

Financial Proposal (budget in PKR inclusive of all taxes) (20 points)

The budget should be sufficiently detailed with separate staffing and operating costs; and taxes should be mentioned separately.

25 Evaluation of Proposal Price and ranking:

<u>Evaluation Criteria</u>

The Evaluation will be conducted based on:

- Technical Proposal and Presentation (80 points); and
- Financial Proposal (20 points)

Financial Score to be calculated as:

Financial proposal submitted will be evaluated according to price reasonableness determination under full and open competition and known market conditions.

Evaluation of the financial proposal will consider, but will not be limited to, the following:

- Cost reasonableness;
- Consistency with the technical proposal

Note: The financial bid shall be evaluated on the total price proposed in the financial proposal.

20 points will be awarded to the lowest responsive bidder while rest of the bids will be allocated points according to the following formula:

Points of a Bidder = (P1/ P2) * 20
Where:
P1= Price of Lowest Responsive Bidder
P2= Price of the Bidder

Karandaaz Pakistan may also negotiate the price and terms & conditions with the short-listed/ highest (combined technical and financial) scored bidder to have best techno-commercial outcome. If the outcome of the negotiation is unsuccessful or an agreement is not reached with the top ranked bidder, Karandaaz may then negotiate with the next in-line bidder and so on down the list as per rank until a satisfactory outcome is achieved.

26 Correction of Errors

Proposal determined to be substantially responsive shall be checked by Karandaaz Pakistan for any arithmetical errors. Errors shall be corrected by Karandaaz Pakistan as follows:

Where there is a discrepancy between the amounts in figures and in words, the amount in words shall govern.

The amount stated in the proposal shall be adjusted by Karandaaz Pakistan in accordance with the above procedure for the correction of errors and, with the concurrence of the bidder, shall be considered as binding upon the bidder. If the bidder does not accept the corrected amount, the proposal shall be rejected.

27 Currency for Price Evaluation

The financial proposal must be submitted in PKR only.

E. Award of Contract

28 Award Criteria

Karandaaz Pakistan shall award the contract to the bidder whose proposal has been determined to be substantially responsive to the RFP and which has the highest combined technical and financial score and is most advantageous to Karandaaz.

29 Karandaaz Pakistan's right to accept any Proposal and to reject any or all Proposals

Bidders whose bid is evaluated successful will be notified of award and unsuccessful bidders will also be intimated via regret emails. Karandaaz Pakistan shall observe a 7 calendar days standstill period after intimation of results. Standstill period is defined as the period to give Bidders time to assess whether it is appropriate to submit an inquiry/concern/complaint. In case a vendor inquiry about the results of the evaluation, only the scores of the inquiring party shall be shared.

Any inquiry received after the standstill period shall not be considered for any action.

Karandaaz Pakistan reserves the right to cancel the bidding process and to reject all bids or to accept or reject any bid, at any time prior to the award of contract, without thereby incurring any liability to the affected bidder or bidders or any obligation to inform the affected bidder or bidders of the grounds for Karandaaz Pakistan's action.

30 Complaints pertaining to Bidding Process

Without prejudice to Clause 29 of Section 2, any complaint at any stage of the bidding process or on conclusion of the bidding process from a bidder regarding a deviation from the prescribed procurement procedure may be addressed and delivered in writing to:

Karandaaz Pakistan
Attention: Chief Executive Officer
1 E, Ali Plaza, Nazimuddin Road, D-Chowk, Islamabad

Any requests via email seeking this explanation should be sent to
proccomplaint@karandaaz.com.pk

31 Notification of Award and Signing of Agreement

The bidder whose Proposal has been accepted shall be notified of the award by Karandaaz Pakistan prior to expiration of the proposal validity period through a communication in writing (the "Letter of Acceptance"). The said Letter of Acceptance shall state the full value of the contract payable by Karandaaz Pakistan in consideration of the services to be provided in accordance with the RFP.

The contract pursuant to the award shall incorporate all agreements between Karandaaz Pakistan and the successful bidder and shall be signed by Karandaaz Pakistan and sent to the successful bidder, anytime following the date of the Letter of Acceptance. The successful bidder will duly sign the contract and return it to Karandaaz Pakistan with seven (7) days of the receipt of the Letter of Acceptance.

32 Corrupt or fraudulent practices

Bidders, suppliers, contractors and their agents (whether declared or not), suppliers, and any personnel thereof, shall observe the highest standard of ethics during the procurement and execution of contracts.

Any effort by the bidder to influence Karandaaz Pakistan in the examination, evaluation, comparison, post-qualification of the proposals, or contract award decisions will result in the rejection of its proposal.

Karandaaz Pakistan shall not award the contract if it is determined that the bidder, or any of its personnel, or its agents, or its suppliers and/or their employees, has, directly or indirectly, engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices in competing for the contract in question. As part of bidding/ solicitation documents, Karandaaz Pakistan will seek declaration of 'Non collusive non-corrupt practices' from each bidder. Format for such declaration is prescribed in Section 3 of the standard bidding document. In pursuance of this policy, following terms are defined as follows:

a. "Corrupt practice" is the offering, giving, receiving, or soliciting, directly or indirectly, of anything of value to influence improperly the actions of another party;

b. "Fraudulent practice" is any act or omission, including a misrepresentation, that knowingly or recklessly misleads, or attempts to mislead, a party to obtain a financial or other benefit or to avoid an obligation;

c. "Collusive practice" is an arrangement between two or more parties designed to achieve an improper purpose, including to influence improperly the actions of another party;

d. "Coercive practice" is impairing or harming, or threatening to impair or harm, directly or indirectly, any party or the property of the party to influence improperly the actions of a party;

e. "Obstructive practice" is deliberately destroying, falsifying, altering, or concealing of evidence material to the investigation or making false statements to investigators in order to materially impede investigation into allegations of a corrupt, fraudulent, coercive or collusive practice; and/or threatening, harassing or intimidating any party to prevent it from disclosing its knowledge of matters relevant to the investigation or from pursuing the investigation.

Karandaaz Pakistan shall not award the contract if it's determined that the bidder or any of its personnel, agents or consortium partner - suppliers and/or their employees are directly or indirectly engaged in or support individuals, groups or entities associated with terrorism, including but not limited to the following:

a. HM Treasury's Office of Financial Sanction Implementation-Financial sanctions consolidated list of targets;
b. UK Home Office- Proscribed terrorist groups or organisations;
c. United Nations- United Nations Security Council Sanctions List;
d. World Bank- World Bank Listing of Ineligible Firms and Individuals.

e. European Union- Consolidated List of Sanctions;
f. Parties on US Treasury's Office of Foreign Assets Control (OFAC) List of Specially Designated Nationals and Blocked Persons
g. National Counter Terrorism Authority (NACTA)- Proscribed Organizations List;
h. National Counter Terrorism Authority (NACTA)-Proscribed Persons List
i. French DG Trésor Freeze Register Sanctions List

33 Avoidance of conflict of interest

Any bidder participating in the procurement process should disclose any actual or perceived conflict of interest situation/condition. Any bidder to have a conflict of interest shall be ineligible for award of a contract.

A bidder shall be considered to have a conflict of interest in a procurement process if:

a. Such bidder is providing goods, works, or non-consulting services resulting from or directly related to consulting services for the preparation or implementation of a project that it provided or were provided by any affiliate that directly or indirectly controls, is controlled by, or is under common control with that bidder; or

b. An entity can participate only in one bid: as a single bidder, as a lead in a consortium/ joint venture or as a partner in a consortium / joint venture. Partnership firms or similar entities in different jurisdiction which work under common brand name or a part of affiliated network will be regarded as single entity and may not participate in more than one bid. Similarly associates and subsidiaries of an entity will be regarded as a part of a group and may not participate in multiple bids. Bidders may ask for clarification and any decision in this regard by Karandaaz shall be deemed to be final.

c. Such bidder(including its personnel) has a close business or family relationship with one or more professional staff of Karandaaz Pakistan who: (i) is/are directly or indirectly involved in the preparation of the bidding documents or specifications of the contract, and/or the bid evaluation process of the contract; or (ii) would be involved in the implementation or supervision of the contract unless the conflict stemming from such relationship has been resolved in a manner acceptable to Karandaaz Pakistan throughout the procurement process and execution of the contract; or
Such bidder falls under any other conflict of interest situation as specified in the standard bidding documents relevant to the specific procurement process.

34 Duty of Care

The successful bidder in performance of services for Karandaaz shall exercise a duty of care. Duty of care holds the successful bidder responsible for the safety and well-being of its personnel and any third party affected by its activities.

35 Related Parties

Any bidder participating in the procurement process should disclose whether they are a Related Party of Karandaaz Pakistan.

Related Parties of Karandaaz Pakistan include:

(i) a director or his / her relative,

(ii) key managerial personnel or his relative;
(iii) a firm, in which a director, manager or his relative is a partner;
(iv) a private company in which a director or manager is a member or director;
(v) a public company in which a director or manager is a director or holds along with his relatives, any shares of its paid-up share capital;
(vi) any corporate whose chief executive or manager is accustomed to act in accordance with the advice, directions or instructions of a director or manager;
(vii) any person on whose advice, directions, or instructions a director or manager is accustomed to act:
Provided that nothing in sub-clauses (vi) and (vii) shall apply to the advice, directions or instructions given in a professional capacity;
(viii) any company which is a holding, subsidiary, or an associated company of Karandaaz Pakistan; or a subsidiary of a holding company to which Karandaaz Pakistan is also a subsidiary;
(ix) such other person as may be specified.

Here relative is taken to mean: the spouse, siblings, lineal ascendants, and descendants of a person.

It is the policy of Karandaaz Pakistan that transactions with related parties shall be on purely commercial terms. There will not be any undue consideration given to such transactions.

In case bidder is a Related Party, following minimum information will be required to be provided alongside the proposal for use by the relevant approval body at Karandaaz Pakistan. Bidder acknowledges that Karandaaz Pakistan may also require additional information not listed below.

I Names of the interested or concerned persons or directors
II Nature of relationship, interest or concern along with complete information of financial or other interest or concern of directors, managers or key managerial personnel in the related party
III Any other relevant and material information that is necessary for the body to make a well - informed decision regarding the approval of related party transactions

The bidder acknowledges that Karandaaz Pakistan may have a separate approval process for its transactions with Related Parties. The bidder further acknowledges that Karandaaz Pakistan is obligated to maintain a register of its transactions with Related Parties, and may disclose this information where required, including, but not limited to, its annual accounts.

36 Anti-Terrorism

The bidder will not use funds provided under this Agreement, directly or indirectly, in support of activities (a) prohibited by US laws related to combatting terrorism (b) with or related to parties on the List of Specially Designated Nationals (www.treasury.gov/sdn); or (c) with or related to the countries against which the U.S. maintains a comprehensive embargo.

SECTION 4. TERMS OF REFERENCE

TERMS OF REFERENCE

Thematic Area: Research, Marketing and Communications (RMC)

Project Title: Designing a Sustainable Business Model for Raast

Expected Start Date: October 2025

End Date: October 2026

Project Manager: Senior Manager, Research and Insights

About Karandaaz Pakistan

Karandaaz Pakistan is a not-for-profit public company limited by guarantee, set up under Section 42 of the Companies Act, 2017. Karandaaz was established in 2014 with seed funding from the UK Government's Foreign, Commonwealth, and Development Office and the Gates Foundation. Karandaaz Pakistan is an impact investment platform that drives sustainable economic growth and strengthens financial and social protection systems for inclusion. Its main area of focus is addressing challenges faced by SMEs and unbanked individuals in Pakistan with respect to access to finance, fostering economic growth and prosperity for the country.

Karandaaz Pakistan operates through four program verticals:

- **Karandaaz Capital** provides wholesale structured credit and equity-linked direct growth capital investments in micro, small, and mid-size enterprises that have the potential to contribute to sustainable growth and employment generation in Pakistan.

- **Karandaaz Digital** focuses on expanding access to digital financial services in Pakistan by working across the ecosystem with all stakeholders in the following work areas: digital public infrastructure, payment systems, policy and regulation, seeding innovation, experimentation, solutions development, and scale and outreach.

- **Karandaaz Innovation Investments** provides risk capital and technical assistance to support innovative solutions aimed at financial inclusion and entrepreneurship, especially in marginalized sectors. A key component of the work includes providing business development support and growth capital to women-led businesses and green ventures to facilitate their expansion and scale-up.

- **Karandaaz Research & Insights** supports the company's core financial inclusion goal by developing and disseminating evidence-based insights and solutions to influence markets and its financial ecosystem.

Background and Context

A national instant payment system is an integral component of the modern financial ecosystem, acting as foundational infrastructure for inclusive economic growth, digital innovation, and fiscal

transparency. Globally, countries that have invested in robust, instant payment systems have witnessed significant progress in lowering transaction costs, reducing informal economic activity, and enhancing government efficiency. Evidence suggests that increasing transaction volumes and related cost efficiencies for businesses and consumers contribute meaningfully to economic growth. In Thailand, for instance, the Prompt Pay fast payment system is projected to add up to 2% to the country's forecasted GDP by 2026.[1] Similarly, systems such as India's UPI, Brazil's PIX, and Kenya's PesaLink have revolutionized digital commerce, particularly by enabling low-cost transactions across vast networks of micro and small merchants, the informal sector, and underbanked populations.

Pakistan, too, has made notable strides in its digital financial infrastructure. Over the last decade, the State Bank of Pakistan has spearheaded a series of reforms under the National Financial Inclusion Strategy and National Payment Systems Strategy to promote digitization and expand access. According to SBP's Annual Payment Systems Review FY 2023-24, mobile and internet banking have played a pivotal role in accelerating digital payment adoption by providing users with seamless access to financial services. In FY24, transactions through these channels surged by 62%, reaching 1.35 billion, while the total value rose by 74% to PKR 69.8 trillion. Moreover, as of third quarter of FY25, the number of POS machines have also increased to 179,383, processing more than 1 million purchases a day at 140,861 merchants.[2]

Moreover, the proliferation of branchless banking, electronic money institutions (EMIs), and digital wallets has created new pathways for previously excluded segments to participate in the formal financial economy. However, it is crucial to note that Pakistan remains a cash-intensive economy, with over 85% of transactions still taking place in physical currency. Despite a slight reduction in cash usage at Point-of-Sale (POS) locations, from 84% in 2019 to 78% in 2023, Pakistan's informal economy remains sizable, estimated to be equivalent to over 40% of the formal GDP. This persistent reliance on cash hinders economic growth, limits financial inclusion, and weakens regulatory oversight.[3]

In response to this challenge, the SBP launched Raast in 2021, Pakistan's first government-backed instant payment system. Raast was developed as a digital public infrastructure (DPI) to support high-volume, low-cost transactions for individuals, businesses, and government entities. Built on an open, interoperable architecture, Raast eliminates many of the barriers traditionally associated with card-based and mobile wallet systems, including scheme fees, long settlement times, and interoperability limitations. It enables real-time transfers via aliases or QR codes, and integrates seamlessly with banks, EMIs, and other PSPs. While Raast is already operational for person-to-person (P2P), bulk (G2P)

transactions, and person-to-merchant (P2M) payments, the P2M module is being scaled further, given its transformative potential for formalizing retail transactions, reducing the cash footprint, and driving financial inclusion among micro and small enterprises.

As per level one design principles set by the Gates Foundation, systems such as Raast should "operate on a not-for-loss or cost-recovery-plus-investment basis where payments are a utility, and should consider the needs of women, the poor, and other disadvantaged groups. This does not preclude digital financial service providers, or other service providers in the ecosystem, from earning profits".[4]

However, the success of Raast, particularly in the P2M domain, hinges on the development of a self-sustaining business model that balances affordability for merchants with economic viability for service providers, considering its role as a public good. Currently, the absence of a viable commercial incentive, particularly in a zero-MDR (Merchant Discount Rate) environment, limits acquirer interest and investment. This challenge is not unique to Pakistan. Countries like India and Brazil also initially adopted zero or near-zero MDR regimes to accelerate adoption, but gradually transitioned to alternative monetization strategies. In India, for example, UPI (Unified Payments Interface) monetization has evolved through government subsidies, value-added services (VAS), and embedded credit offerings. Brazil's PIX similarly support merchant acquisition through tiered MDR structures and revenue from soundbox subscriptions, reconciliation tools, and merchant analytics. These models demonstrate the co-existence of zero MDR approach with a commercially sustainable ecosystem, provided there is a roadmap for progressive monetization and institutional buy-in.

Despite its structural advantages, such as SBP-backed switching, no scheme fees, and real-time settlement, Raast faces similar hurdles. Many acquiring banks and payment service providers (PSPs) in Pakistan currently view merchant acquiring under Raast as a compliance obligation rather than a commercial opportunity. Without a sustainable revenue stream, such as MDR or VAS-driven monetization, acquiring institutions are unlikely to make the necessary investments in onboarding, infrastructure, and merchant support. Moreover, uniform pricing models may not reflect the diversity of Pakistan's merchant landscape, which is characterized by different transaction volumes, digital readiness, and margins. A one-size-fits-all model risks undercutting the entire value proposition of Raast and failing to bring micro and small merchants into the fold.

In this context, there is a critical need to explore sustainable pricing structure and alternate revenue models for Raast. In line with this vision, Karandaaz intends to solicit proposals for a research study that will focus on analyzing how merchants of different sizes respond to different pricing structures, evaluate global pricing strategies for national payment systems, and identify monetization approaches beyond transactional fees. The study will explore the business models of acquiring entities, quantify the benefits to merchants at an aggregate level, and assess the feasibility of replicating global best practices in Pakistan's unique socio-economic and regulatory environment. Emphasis will also be

placed on understanding the tax implications, designing merchant-specific pricing strategies, and creating incentives for ecosystem actors to invest in and promote Raast adoption.

Ultimately, this study aims to fill critical knowledge gaps and inform the design of a pricing strategy and ecosystem roadmap that aligns commercial sustainability with public good. By synthesizing global insights, primary research with Pakistani merchants, and stakeholder consultations, the study will offer a pathway toward a thriving digital payments ecosystem. In doing so, it will support public and private sector players in leveraging Raast to digitize commerce, reduce economic cost of cash and enhance financial inclusion in the country.

Research Objectives

This research study aims to comprehensively address the following key objectives:

- **Merchant Segmentation and Behavior:** Conduct comprehensive segmentation and categorization of Pakistani merchants (micro, small, medium, large) by sector, digital maturity, geography, and transaction volumes and understand their sensitivity to pricing structures, such as flat fees and tiered MDR. This also includes a review of SBP's latest segmentation of merchants to define micro and small merchants.[5]

- **Policy Impact Analysis:** Analyze, with respect to costs, the impact of all pricing regimes globally on acquiring supply chain agents, banks, government and largely on merchant onboarding, and ecosystem viability.

- **Alternative Revenue Models:** Evaluate pricing innovations and monetization approaches, such as soundbox subscriptions, embedded credit, data monetization, tax rebates, and value-added services; explore public-private cost-sharing strategies, as done in India and Brazil.

- **International Case Studies:** Examine pricing structures in relevant jurisdictions, such as India, Brazil, Nigeria, Kenya, and others, to identify replicable models; study success factors, failures, and local adaptation needs to compare Pakistan's current and proposed pricing models with international peers.

- **Feasibility Assessment for Pakistan:** Analyze taxation, digital readiness, and regulatory barriers; suggest scalable, merchant-friendly, and economically viable alternatives to MDR and provide a roadmap toward sustainable acquiring infrastructure and ecosystem incentives.

Project Scope of Work

The research study will be implemented in three structured phases, each building upon the findings of the previous to ultimately develop a comprehensive, evidence-based roadmap for creating a self-sustaining business model for Raast. Each phase is designed with clear deliverables, stakeholder engagement points, and a blend of primary and secondary research. The methodology will be collaborative, ensuring alignment with the needs of the State Bank of Pakistan, Karandaaz, and broader ecosystem stakeholders.

Phase 1: Merchant Segmentation and Pricing Structure Design

The first phase of the study will focus on conducting an in-depth segmentation and categorization of merchants (by size and type) in Pakistan to understand their characteristics, transaction behaviors, digital readiness, and sensitivity to various pricing models, including different MDR (Merchant Discount Rate) structures. It will also involve a review of SBP's latest segmentation of merchants to define micro and small merchants. This phase is crucial to ensure that any future pricing framework proposed for Raast is grounded in the realities of Pakistan's diverse retail and services sectors.

This phase will begin with the design and execution of a comprehensive primary research exercise, which will include interviews with merchants across multiple categories, micro, small, medium, and large, operating in different sectors and geographies. The objective is to capture granular insights into merchant preferences, cost structures, digital adoption levels, and their willingness to accept digital payments under different pricing conditions.

This phase will also involve extensive stakeholder consultations that engage acquiring banks, PSPs, fintechs, regulators, and digital commerce platforms. These discussions will provide additional perspectives on pricing feasibility, acquiring economics, operational barriers, and potential support mechanisms.

Using the insights generated from both merchant research and stakeholder engagements, phase 1 will conclude with proposing a pricing structure that complements the merchant segmentation component. A pricing sensitivity analysis will also be conducted to evaluate merchant responsiveness to various MDR levels and their impact on overall transaction volume and adoption. The findings from this phase will culminate in the Phase 1 Report, which will present a segmented pricing framework supported by data and stakeholder feedback, serving as the foundation for sustainable adoption of Raast P2M (person-to-merchant) payments.

Phase 2: Exploration of Alternative Revenue Models for Raast

Building upon the merchant-level insights from Phase 1, the second phase of the study will explore alternative monetization strategies for Raast beyond the traditional MDR framework. Recognizing that a zero or near-zero MDR environment may limit commercial incentives for service providers, this phase will investigate sustainable revenue models implemented in comparable jurisdictions and assess their applicability in the Pakistani context.

The research will draw on international case studies from countries such as India, Brazil, Nigeria, and Kenya, where national payment systems have adopted diverse monetization approaches. These include soundbox subscription models, value-added services (VAS) like reconciliation tools and analytics, embedded credit offerings, and public-private cost-sharing mechanisms. In studying global examples, it is essential to examine the challenges encountered in achieving sustainability, how these

were addressed, and which entities bore the associated costs, along with the resulting impact on ecosystem viability. Special attention will be paid to the business case for acquiring entities in these markets and the types of revenue that have emerged around non-transactional services.

To ensure relevance, this phase will also include consultations with key players in Pakistan's digital finance ecosystem to understand the local feasibility of these models. The research will consider Pakistan's tax regime, regulatory environment, and digital maturity to assess which models can be realistically adapted or scaled.

The Phase 2 Report will offer a detailed analysis of alternative revenue streams, implementation feasibility, incentives and associated risks, and projected outcomes for ecosystem actors. It will serve as a critical input for designing a revenue-positive path forward for Raast that ensures provider sustainability without compromising affordability or inclusiveness.

Final Phase: Consolidation and Roadmap Development

The final phase of the project will focus on the integration of insights from Phase 1 and Phase 2 to produce a consolidated, actionable roadmap for the financial sustainability of Raast. This will involve synthesizing the proposed merchant segmentation-based pricing model with the alternate revenue strategies identified during Phase 2 into a coherent framework that addresses both supply-side (acquirers, PSPs, financial institutions) and demand-side (merchants, consumers) dynamics.

This roadmap will clearly delineate the roles of various stakeholders, outline policy and regulatory enablers, and identify potential implementation pathways for a sustainable Raast P2M ecosystem. It will also offer recommendations on sequencing, such as when and how to introduce new pricing tiers or monetization tools, and propose incentive mechanisms to accelerate adoption, especially among micro and small merchants.

Additionally, the consolidated report will present an evidence-based business case for acquiring entities, analyze the macroeconomic benefits of digitizing merchant payments through Raast, and highlight the long-term potential for financial inclusion and cash reduction. Where applicable, policy and fiscal support measures will be suggested to ease the transition toward a sustainable, low-cost digital payment environment.

Project Deliverables and Payment Schedule

The table below details the chronology of how key activities are proposed to be rolled out over a duration of 12 months. The deliverable and payment schedule for the project is provided as follows:

Deliverable	**% of Payment**
Inception Meeting and Report (including the methodology, stakeholder mapping and workplan)	15
Phase 1 Report: Merchant Segmentation and Pricing Structure	25
Phase 2 Report: Alternate Revenue Models for National Payment Systems	25
Final Consolidated Report and Roadmap (in Word and PowerPoint)	25
Final Presentation to Karandaaz and Stakeholders	10

The Research & Insights (R&I) team shall participate in stakeholder consultations where possible. **The Consultant shall be responsible for making all logistical arrangements for their team required with respect to the engagement and inform Karandaaz at least three days prior to all meetings.** The Contractor will report to the Senior Manager, Research & Insights at Karandaaz, or his/her designee. The task manager will sign off on deliverables and invoices. The contractor will also organize bi-weekly update calls/meetings with the R&I team to inform them of progress, findings to date and next steps.

Relevant stakeholders, including the State Bank of Pakistan, may be involved in the review of the deliverables and quality assurance, presentation on research findings and the final presentation at project closure. Any feedback, comments or suggestions by the SBP regarding the project deliverables must be addressed by the vendor.

This project will require a dedicated Point of Contact (PoC) from the vendor to ensure effective and timely communication and coordination throughout the project.

Vendor Requirements

Vendor Expertise and Competency Requirements

- Extensive experience in the financial sector, with a proven focus on digital financial services, and payment systems architecture.
- Familiarity with national payment systems, particularly in the context of real-time payment platforms such as Raast, UPI (India), PIX (Brazil), and others.
- Proven ability to design and execute primary research across diverse merchant categories, with experience in stakeholder engagement, especially within the DFS domain.
- Technical understanding of market solutions and infrastructure relevant to instant payments, including switches, merchant acquiring platforms, reconciliation tools, value-added services and embedded financial products.
- Experience working on projects involving central banks or regulatory bodies, ideally in developing markets.
- Strong familiarity with Pakistan's financial sector, including past or ongoing work related to SBP regulations, Raast, EMI regulations, or DFS development initiatives.
- Knowledge of the regulatory environment governing DFS and payments in Pakistan, including licensing frameworks, compliance requirements, and relevant SBP policy guidelines.

Vendors that have successfully undertaken similar research studies, pricing strategy development, or ecosystem modeling exercises in Pakistan or comparable jurisdictions will be preferred. The team must have strong analytical and report-writing capabilities, with the ability to present findings in a clear, data-driven, and policy-relevant format.

The Bidder:

Karandaaz intends to solicit proposals from consultancy firms and/or consortiums. The bidder may be nationally or internationally based; however, international bidders must have a local presence in the form of a partner or be registered in Pakistan, have a valid National Tax Number (NTN), and can travel and work across Pakistan.

- Individuals who are nationals, permanent residents of India or Israel, or who originate from India or Israel will not be engaged for the project team or project steering team.
- Bidders which are based in India and/or Israel or in countries against which the U.S. maintains a comprehensive embargo are not eligible to participate in the RFP.
- The successful bidder must comply with all relevant laws, rules and regulations prevailing under Pakistani Laws.
- The responses submitted by the bidder to the RFP represents a firm offer to contract on the terms and condition described herein.
- The proposal must be signed by the authorized person, according to the laws of the jurisdiction of its incorporation/registration and according to the laws of Pakistan, to commit the bidder to the terms and conditions of the RFP, who shall have full authority to sign the proposal documents on behalf of all the bidders/members of the joint venture.
- The bidder must disclose at the earliest of any actual or potential conflict of interest with Karandaaz Pakistan as referenced above.
- The members of the joint venture shall be jointly and severally liable to Karandaaz Pakistan for the execution of the Project in accordance with the terms of the RFP document and a statement to this effect shall be included in the joint venture agreement, which should be submitted with the Proposal.

The bidder shall be deemed to have carefully examined the RFP document to its satisfaction. Any lack of information shall not in any way relive the bidder of its responsibility to fulfil their obligations under the RFP

Documents to be Submitted

Each set of documents should be submitted separately in sealed envelopes and then included in a larger sealed package. This larger package must be mailed and emailed (soft copies) to the following postal address no later than 18th September 2025. Following sets shall be submitted:

i) Pre-qualification documents

ii) Technical Proposal

iii) Financial Proposal

• Office Address: 1 E, Ali Plaza, Nazim ud din Road, D-Chowk, Islamabad

The envelope should be marked: “Designing a Sustainable Business Model for Raast.”

Annexure - A

PROPOSAL SUBMISSION FORM

Dear Sir/Madam,

Having examined the Solicitation Documents, the receipt of which is hereby duly acknowledged, "THE FIRM NAME" undersigned, offer to provide consulting for "INSERT REFERENCE NUMBER" to Karandaaz Pakistan in accordance with the Price Schedule attached herewith and made part of this proposal. "THE FIRM NAME" undertake, if our proposal is accepted, to commence and complete delivery of all services specified in the contract within the time frame stipulated.

"THE FIRM NAME" agree to abide by this proposal for a period of 90 days from date fixed for opening of proposal in the invitation for proposal, and it shall remain binding upon us and may be accepted at any time before the expiration of that period.

We understand that you are not bound to accept any or all proposals you may receive. We also accept all terms of conditions RFP. We undertake that we will initiate the delivery of /Services as per the client's request, if our proposal is accepted.

The contractor hereby confirms that it has not been involved and has no association in any manner what so ever related to any act of terrorism or terrorist organization(s)/person(s) listed in any country and also in NACTA Schedules I & IV lists for proscribed companies and individuals and UN terror list.

We understand that you are not bound to accept any proposal you receive.

Dated: this------day of -------2025

Yours sincerely,

Signature Name and title of signatory

Name, Designation and Signature of the "firm authorized Representative"

Annexure - B

[LETTERHEAD OF THE ENTITY]

UNDERTAKING REGARDING NOT BEING BLACKLISTING

It is hereby certified that **[Name of Organizations]** has not been blacklisted by any Govt, Agency/authority **as on [Date]**. The Organization will immediately inform Karandaaz in case of any change in the status at any time hereinafter.

It is further certified that the bidder or any of its personnel, agents or, suppliers and/or their employees are not directly or indirectly engaged in or support individuals, groups or entities associated with terrorism, including but not limited to the following:

a. HM Treasury's Office of Financial Sanction Implementation-Financial sanctions consolidated list of targets;
b. UK Home Office- Proscribed terrorist groups or organisations;
c. United Nations- United Nations Security Council Sanctions List;
d. World Bank- World Bank Listing of Ineligible Firms and Individuals.
e. European Union- Consolidated List of Sanctions;
f. Parties on US Treasury's Office of Foreign Assets Control (OFAC) List of Specially Designated Nationals and Blocked Persons
g. National Counter Terrorism Authority (NACTA)- Proscribed Organizations List;
h. National Counter Terrorism Authority (NACTA)-Proscribed Persons List
i. French DG Trésor Freeze Register Sanctions List
